

**HIBISCUS MOON CRYSTAL THERAPY
CODE OF ETHICS**

In my practice of the Hibiscus Moon Crystal Therapy Method, and as a Certified Crystal Practitioner, I vow to always:

1. Practice methods as taught in the course and use all precautionary measures;
2. Only perform massage, acupuncture or acupressure if licensed to do so;
3. Preserve client confidentiality, and never share information learned during sessions or intake unless required by law;
4. Abstain from giving any medical diagnoses, interfering with the treatment of a licensed health care provider, or suggesting the use or change of use of any prescription, medication, or treatment;
5. Refrain from giving medical advice. Your qualification, training, experience and skills are not to be used as a substitute for professional advice of any kind, including medical, mental, oncological, gynecological or other qualified professional help and you agree to advise your client(s) to seek professional guidance for such matters, should they arise. If your clients receive information or advice from a medical professional that conflicts with your information, you will recommend to your client that they rely on the medical professional, not your information.
6. Actively work on my own therapy and education so as to embody and fully express the essence of Crystal Therapy in every facet of my life;
7. Be responsible for the energy I bring into the therapy space and into any transactions as a student or as a therapist, always striving to be positive;
8. Never attempt to awaken Kundalini on others;
9. Be open to the continuing process of enhancing my professional qualifications, training, experience and skills;
10. Respect and value all energy workers and therapy modalities, and refrain from making negative statements about others;
11. Encourage my clients to empower themselves, and assist them in their personal growth as well as their own crystal practice;
12. Treat my clients and their physical person with the greatest respect, and never engage in any illegal or immoral activity which hurts them, such as unsolicited touching of their genital area or breasts, asking them to disrobe, or sexual comments, jokes or references;
13. Abstain from the use of drugs or alcohol during all professional activities;
14. Be truthful in my advertising by openly discussing my training and background, what is offered in a crystal therapy session, the fee that is charged, and the amount of time spent in sessions; and
15. Educate my clients regarding the merit of crystal therapy in conjunction with other medical treatments, and thoroughly explain that it does not guarantee a cure and is not a substitute for medical or psychological treatment, but only a supplement to these treatments.
16. Learn and obey the most current local, state, and federal laws applicable to my practice.

By signing this form, I vow to practice the Crystal Therapy Methods as taught to me through the Hibiscus Moon Crystal Academy and to not veer from this Code of Ethics.
